GUERNSEYS

EDGEMOOR FARM
SANTÉE, CALIF.

THE largest and finest herd of Guernseys on the Pacific Slope. Our 250 head includes 50 cows and heifers with A. R. records and 24 more in test. In these are 5 from 609.69 to 692.5 lbs., 6 from 556 to 609 lbs., 19 from 425 to 525 lbs., 9 2-year-olds from 446 to 564 lbs. We shall keep our new test barn (capacity 30 cows) full until every cow and heifer of milking age is in the A. R.

We offer bulls of the highest type and breeding at very attractive prices. Most of the bulls are out of A. R. cows or those in test. We have just issued a new bull list. Yours for the asking. See our herd in the show ring and visit us at the View Herd Barn. We want to know you.

W. H. DUPEE, OWNER

Hello Dairyman!

Have you seen the Calf-Way Milker?

It is practical, durable, sanitary, safe and simple.

It milks from start to finish.

Its action is gentle, natural, positive.

It has a **downward progressive squeeze**, with an inner lining, which protects the teat of the cow from direct vacuum, **squeezing** out the milk without injury.

If you wish to be happy and prosperous **BUY A CALF-WAY MILKER.**

P. S.—Why not call at the Carnation Barn and see the machines in daily operation milking their demonstration herd?

Be sure and visit the Calf-Way Booth, Palace of Agriculture, or write us. 168 North Michigan Blvd., Chicago, Ill.

HILLSWOLD FARM

Offers for sale a son of Pinecrest May Prince 21427. Born October 17, 1914, whose dam was sired by Florham Noble 14734. He is a splendid individual, well marked and grown. Also

Four Fine Bull Calves

from two to four months old. These dams on test have so far gone well over 1000 pounds milk each month. Write for free pedigrees and prices to

W. A. CLOUES, Manager
Shrewsbury, Mass.

A. CHALMERS

Of Forest Grove, Oregon,

Has a Fine Exhibit of

SHORTHORN CATTLE

On the grounds. He has been breeding and raising SHORTHORNS for 30 years—in fact this gentleman was born to the trade with the Aberdeenshire SHORTHORNS on his father's farm.

THE CATTLE show first-class breeding and utility and his calves and family are raised on SHORTHORN MILK.

NEW YORK

THE GUERNSEY REPRESENTS THE LAST WORD

In Economical Production of the Finest DAIRY PRODUCTS

CONSUMERS OF MILK IN EVERY CENTER OF POPULATION ARE DEMANDING A PRODUCT THAT COMBINES CLEANLINESS WITH A NATURAL GOLDEN COLOR AND A HIGH CONTENT OF FAT SOLIDS

Progressive Farmers Are Turning to the Guernsey Breed to Gain These Qualities

Prolificacy

Seven foundation animals, seven years ago in a Maryland herd with an investment of \$1975, have an average record of 12,951 pounds milk and 651 pounds butter fat. Bull calves have been sold for \$2776. The female calves have been retained and now number 33.

Production

10 Guernseys average 947 pounds fat.
35 Leading Guernseys average 795 pounds fat
All Mature Cows Tested average 500 pounds fat

Another Reason

A prominent dealer in a low grade of milk recently made the statement that without two-fifths of his herd were Guernseys, he could not compete with the milk sold in his community.

SEE THE EXHIBIT OF THE MILKING MACHINE OF QUALITY

Scene in dairy on the famous Hershey Milk Chocolate Farm equipped with the Hinman Milkers. They write that the machines are working well and are economical in operating. They are now using the Hinman Milker in eight barns producing milk for the Hershey chocolates. 'Eat Hershey Chocolates'

THE HINMAN MILKER Stands For the Highest Quality in Milking Machines

QUALITY service for seven years. The Hinman Milker has been in successful operation since 1908 and the milkers put out that year are still milking cows twice a day.

QUALITY of principle. The Hinman was invented by practical dairymen and was thoroughly tried out a year before it was put on the market.

QUALITY of milk. The Hinman produces a much better grade of milk than can be secured by hand milking.

QUALITY of its power and up-keep economy. One horse power is ample to operate two Hinman Milkers. Where four to six milkers are used only one and one-half horse power is necessary. In repeated tests the cost of operation is surprisingly low. The average cost of keeping a machine in repair is only \$1 to \$1.50 a year.

QUALITY of Hinman owners. Dairies of many manufacturers of celebrated milk products use the Hinman.

QUALITY of cows milked by a Hinman. They include some of the most valuable registered stock in the country.

QUALITY of its value in small dairies. In a number of dairies of only eight or ten cows the use of the Hinman Milker has been found profitable.

QUALITY of the time saved by a Hinman. Early morning or late afternoon is probably the most valuable time in the day. Each Hinman unit saves the time of one man. Anyone can milk at the rate of 20 to 25 cows an hour.

QUALITY of the honors won by the Hinman. The Hinman has been awarded a gold medal at the Panama-Pacific Exposition and has secured three other gold medals and several diplomas for efficiency.

QUALITY of Hinman service. There is a Hinman representative in every dairy section and a local man in practically every town, which insures the maximum service to all Hinman owners.

Write for free booklet on making more money from your dairy.

OAK GROVE BERKSHIRES

Out of our royally bred sows, and sired by such boars as the undefeated IMPROVER B., first at American Royal and Grand Champion at 1914 California State Fair; ARTFUL MASTERPIECE, twice Grand Champion at California State Fair, and BRINTON'S LONG-FELLOW, we have an extra fine selection of growthy, vigorous, typy pigs—the kind that are sure money makers. Come and see these pigs or write for prices on what you need.

Bess Pietertje Ormsby Mercedes 154367. Age 3 Years and 3 Months.
WORLD'S CHAMPION Three-year-old for Milk.

MORE WORLD'S RECORDS made in this herd in the past year than in any State in the Union.

No other herd has made AN EQUAL showing at the greatest fairs in the country. In 1914, at eleven fairs, this herd captured 137 out of a possible 178 firsts. At the National Dairy Show, 10 out of 20 firsts were taken by animals, BRED, OWNED and DEVELOPED on this farm.

We have twenty-five bulls from a month to three years old that we are offering at exceptional prices. These are splendid individuals and from high-record dams. They have the combination that wins, TYPE and production.

Write us your wants and we will help you select a suitable herd sire.

Section 4. Dairy Short-Horn Bull, six months and under one year.
Catalogue No.

- 2 Potrero Darlington, dropped October 15, 1914. Sire—Royal Darlington, 113148. Dam—Princess Clay, 172165. Alexander & Kellogg, Suisun, Cal.

WE CONGRATULATE YOU

Progressive men and women of the West. Under most trying circumstances you have succeeded in presenting the largest and grandest world's fair ever held. We regret that we could not be with you in person, but owing to the quarantine in several states, this was impossible, but we are with you in spirit. We want to know you good people who do things; we have tried to do all we could to help you in your gigantic undertaking. In return we ask this favor: If you are interested in registered Holstein-Friesian cattle or extra heavily producing grades, write us. We want to number you among our hundreds of Satisfied Customers. Illustrated circular free on request.

STAR FARMS

Dept. H, Cortland, N. Y.

It Was the Caterpillar Tractor

—the one tractor that won't slip, won't mire and won't pack the soil — the one all-season tractor — that won the

Grand Prize

The Highest Possible Award

at both of California's world Expositions — San Francisco and San Diego

CATERPILLAR
Reg. U.S. Pat. Off.

*Plowing in Marsh Land
too Soft for Horses
to Work*

The Caterpillar takes the drudgery out of farm life and puts more dollars into your pocket. It was awarded highest honors because of its "value to agriculture and to the world in general." It has won first awards in scores of international contests.

The famous Caterpillar track isn't the only big feature of this tractor. It has a powerful, steady, four-cylinder motor—our own make. It has a perfect lubricating system, high tension magneto, vacuum fuel feed system—dozens of features that put the Caterpillar in a class by itself.

There are nearly 3000 Caterpillars at work and giving satisfaction in 25 different countries. There's a size for every farm and for every sort of work—plowing, hauling, road making, land clearing, etc.

Don't miss this opportunity to see the Caterpillar—on exhibit in the Palace of Agriculture, and at work in our outdoor exhibit, north of the Live-stock Section, near the bay.

Fill out the attached coupon and hand it to one of the Holt representatives at our exhibit, or mail it to Stockton—we'll put your name on our mailing list to receive interesting literature.
